SUMMARY

I am a Computer Science and Engineering student currently doing my thesis and have finished my final exam. I have foundational programming skills, problem-solving abilities, and experience in team management and communication. I work well with others and have served as a supportive team leader. Recently, I have begun studying Machine Learning and am continuing to deepen my knowledge in this field through my thesis paper. I have also completed several projects, which demonstrate my practical skills and learning journey. You can view them on my GitHub.

SKILLS

- Programming Languages: C, C++, Java, Python
- Software Engineering Concepts: OOP, DBMS, OS, Algorithms, Data Structures
- AI-Related Work: Implementing a machine learning model using Python's TensorFlow or PyTorch libraries to analyze and predict trends in software development practices.
